The Cyprus Economic Society is a non-profit organisation that dates to 1967 and is thus one of the oldest professional societies in the Republic of Cyprus. It is an independent, transparent and open society. Its mission is to *promote the study of economics, to inform public debate and improve economic policy making*. The Society seeks to achieve this by: Encouraging and disseminating economic research; organising various conference, lecture and discussion events; publishing papers and proceedings; and, engaging with other similar societies and professional bodies in the EU and elsewhere. For more information, please visit the CES website
